Exhibitor Information

"The Future is WAC" will focus on the ways in which WAC programs and professionals may need to expand their efforts in response to new economic, institutional, and demographic challenges and how these initiatives can lead the way for our institutions to be self-sustaining and proactive in meeting the changing needs of our students and the communities of which we are a part.

This conference welcomes presentations, interactive workshops, and poster presentations that explore the ways in which WAC has been sustained and enhanced its presence in K-12 schools, colleges and universities, and around the globe. We hope that the conference will include multiple voices and a variety of perspectives on WAC today.

Exhibit Space is available at the Coastal Georgia Center throughout the conference. Exhibitors will be featured on the conference web site.
